

25 October 1967

NOTE FOR: Mr. Duckett

SUBJECT : Communications Requirements Study Group

1. This dandy Group met today. Attending were:

O/PPB :

DD/I :

DD/P :

DD/S&T:

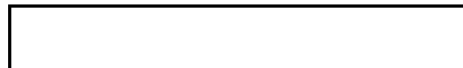

DD/S :

25X1A

2. It turns out that everybody appears to be looking at their internal dissemination to get an idea of the quantity of material handled, the size of the job, number of people involved, etc. Would you like me to take a quick look in DD/S&T via the Executive Officer.

3. Since this involves looking at requirements for communications, plus a prognosis for the future in what changes technology might provoke, I will ask each Office Director to indicate the guy in his office with whom he would like to have me deal for data, etc. --- OK?

25X1A
